

While there are a number of tourism strategies and programmes highlighting the need for sustainable tourism development in the Danube Region, specific strategies targeting sustainable tourism are relatively rare. The INSiGHTS project aims to change this situation by providing guidelines on regional strategy building and related transnational policy recommendations. The overall objective of the project is to foster sustainable utilisation of natural and cultural heritage of the involved areas in the Danube Region in order to preserve and upgrade the intact local resources providing an outstanding potential to make these areas attractive destinations for healthy and slow tourism, thus serve as foundation for a flourishing responsible green tourism sector.

Start date / End date: 01-01-2017 / 30-06-2019
